A multimedia artist and emerging designer specializing in interactive media, UI/UX, and creative technology. Combines a background in visual arts with technical skills in programming and digital production to create engaging, story-driven experiences across physical and digital spaces.

### Education

---

**University of British Columbia/** undergraduate study 2023-2027  
Department of Art History, Visual Art and Theory (AHVA). Major in **Visual Arts**

### Work Experience

---

- **UI/UX designer** - UBC Emerging Media Lab (EML)  
May 2025 - May 2026 | Vancouver, BC  
Served as the sole UI/UX designer for an experimental VR poetry experience and a Gaussian Splat soil viewer focused on immersive scientific visualization. Designed interaction flows, interface systems, and user experiences for VR applications, balancing usability, accessibility, and spatial storytelling. Collaborated with developers and researchers while prototyping in Figma, Unreal Engine, and Blender.
- **New Media Technical Assistant** UBC AHVA New Media Lab  
Sep 2024 - May 2025 | Vancouver, BC  
Supported students, faculty, and artists in the development of digital art and experimental media projects across installation, video, interactive, and web-based formats. Assisted with exhibition setup, media workflows, and technical production. Supported projects using Adobe Creative Suite, TouchDesigner, Figma, video editing tools, and web platforms. Worked across interdisciplinary practices bridging visual art, design, and emerging technology.
- **Lifeguard & Swim Instructor / Staff**  
January 2023 - 2025, Grandview Heights Aquatic Center, City of Surrey

### Leadership & Volunteer Experience

---

- **President /** UBC Visual Arts Student Association  
Sept 2024 - Current, University of British Columbia  
Managed event graphics, promotional materials, and visual branding for student-led initiatives. Coordinated with team members, faculty, and staff to support event planning and execution.
- **ACM SIGGRAPH /** Volunteer  
August 2025,  
Selected as a student volunteer for an international conference on computer graphics and interactive technology. Supported conference operations while engaging with artists, researchers, and industry professionals in XR, animation, AI, and digital media.
